

Operating Air-con in a Covid-19 World

1. Protective Measures for all Kaer Employees

Social Distancing

Remote Working

Virtual Meetings

Masks to be worn at all times

Symptom Monitoring

Twice daily central temperature tracking

Bi-weekly swab tests for all S pass holders

Contact Tracing

SafeEntry

Safe Entry at Kaer office

CHECK-IN
CHECK-OUT

Employee tracing at the Kaer office

TraceTogether

National tracing apps installed

2. Protective Measures Across our Portfolio

Reducing Manpower on Assets

K-RealTime scheduling

Autonomous performance enhancement with AI

Remote monitoring & control

On-Site Operations

CHECK-IN
CHECK-OUT

Employee tracing at all assets

Split teams

Maximum of 3 people per team

3. Operations to Deliver a Healthier Environment for All

Must Have

Regular disinfection of all equipment

Regular sanitisation or replacement of filters

Reduce air re-circulation (increase fresh air to maximum)

Nice to Have

Reduce air velocity, movement & turbulence

Evaluate system specs to accommodate higher grade filters

UV light sterilisation or equivalent air treatment protocols

Regular air quality monitoring

kaer

Better Air For Better Spaces
